## Column E Explanation

This form is intended as an aid to completing the Column E explanation. It is not an official form and its use is voluntary. Names, addresses, protocols, veterinary care programs, and the like, are not required as part of an explanation. A Column E explanation must be written so as to be understood by lay persons as well as scientists.

1. Registration Number: 73-R-0001

2. Species (common name) and number of animals used in this study (list all that apply for this explanation). If you used the same species in more than one procedure, list each procedure and the number of animals used in that procedure in Item 3. Pig (24)

3. Explain the procedure producing pain and/or distress.

Experimental procedures are limited to 5 weeks of daily oral administration of sterile milk (control) or milk containing L. acidophilus culture (treatment) using a syringe with attached latex tubing. On day 7, all pigs will receive a 1 ml oral dose of a Salmonella typhimurium culture administered with a syringe and tubing. The oral administration of Salmonella typhimurium culture may induce a variable clinical disease state (gastroenteritis) associated with this target.

4. Provide scientific justification why pain and/or distress could not be relieved. State methods or means used to determine that pain and/or distress relief would interfere with test results. (For Federally mandated testing, see Item 5 below)

Administration of analgesics or antimicrobials would interfere with the animal's response to the infectious agent. Salmonella typhimurium, and would negate the results from the study. Oral electrolytes will be provided to pigs with evidence of clinical dehydration. Pigs that develop more severe forms of illness (severe dehydration, prolonged recumbency, or profound anorexia) will be humanely euthanized prior to the scheduled conclusion of the study.

5. What, if any, federal regulations require this procedure? Cite the agency, the code of Federal Regulations (CFR) title number and the specific section number (e.g., APHIS, 9 CFR 113.102):

N/A

Robert Gibbens  
APHIS Animal Care; Western Region  
2150 Centre Ave., Bldg. D  
Fort Collins, CO 80526

Dear Mr. Gibbens,

Allow me to introduce myself. I am [REDACTED] for the Veterinary Technology program on our campus. I am also the veterinary member of our IACUC.

Enclosed you will find the registration update and annual report for Oklahoma State University-Oklahoma City, Dept. of Veterinary Technology. If you have occasion to compare our previous annual reports, you may notice that dogs, cats and farm animals were included. This year there are no dogs, cats or farm animals included. Our Animal Care Inspector for this region is Dr. Nancy Ellifrit. She mentioned that this difference might be noted in your office and suggested that I enclose this letter of explanation.

Our facility neither owns nor houses the animals we use for teaching purposes. We have partnerships with facilities in our area which allow us to utilize their animals for teaching purposes. A list of the aforementioned facilities is attached to both the registration update and the annual report. After careful evaluation of the status of our partner facilities, Dr. Ellifrit determined that the animals we are using in our teaching are all actually privately owned, with the exception of those animals at Wildlife Rescue *which are destined to be released*. Additionally, because we partner with our parent institution, OSU in Stillwater, and the Univ. of Oklahoma, the animals owned by those two facilities are being accounted for on their annual reports, which has, in the past, caused them to be twice counted for the same event.

Dr. Ellifrit therefore instructed us to only report the numbers of *releasable*, wild animals used for teaching purposes at Wildlife Rescue.

If you would like to discuss this reporting change with me, please feel free to do so.

Sincerely,

[REDACTED]

## REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY ( Attach additional sheets if necessary or use APHIS Form 7023A )

A. Animals Covered By The Animal Welfare Regulations	B. Number of animal being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes.	C. Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain-relieving drugs.	D. Number of animals upon which experiments, teaching, research, surgery, or tests were conducted involving accompanying pain or distress to the animals an for which appropriate anesthetic, analgesic, or tranquilizing drugs were used.	E. Number of animals upon which teaching, experiments, research, surgery or tests were conducted involving accompanying pain or distress to the animals and for wh the use of appropriate anesthetic, analgesic, or tranquiliz drugs would have adversely affected the procedures, res or interpretation of the teaching, research, experiments, surgery, or tests. ( An explanation of the procedures producing pain or distress in these animals and the reas such drugs were not used must be attached to this report	F. TOTAL NUMBER OF ANIMALS  ( COLUMNS C + D + E )
4. Dogs	NA	NA	20	NA	20
5. Cats					
6. Guinea Pigs					
7. Hamsters					
8. Rabbits					
9. Non-human Primates					
10. Sheep					
11. Pigs					
12. Other Farm Animals					
13. Other Animals					

## ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.
